

Coupon Code Sharing Platform

A community-driven platform for discovering and sharing discount codes

The Coupon Conundrum

Time-Consuming Searches

Endless searching for valid codes.

Expired or Fake Codes

Frustration with invalid discounts.

Scattered Deals

No central hub for all discounts.

Lack of Verification

Untrustworthy and unverified sources.

Our Solution: Smart & Simple

A full-stack web application designed to simplify coupon discovery and sharing.

Share Verified Codes

Empowering users to contribute and validate codes.

Browse Diverse Deals

Access offers from a wide range of stores.

Smart Filtering Options

Effortlessly find codes by status, store, or expiry.

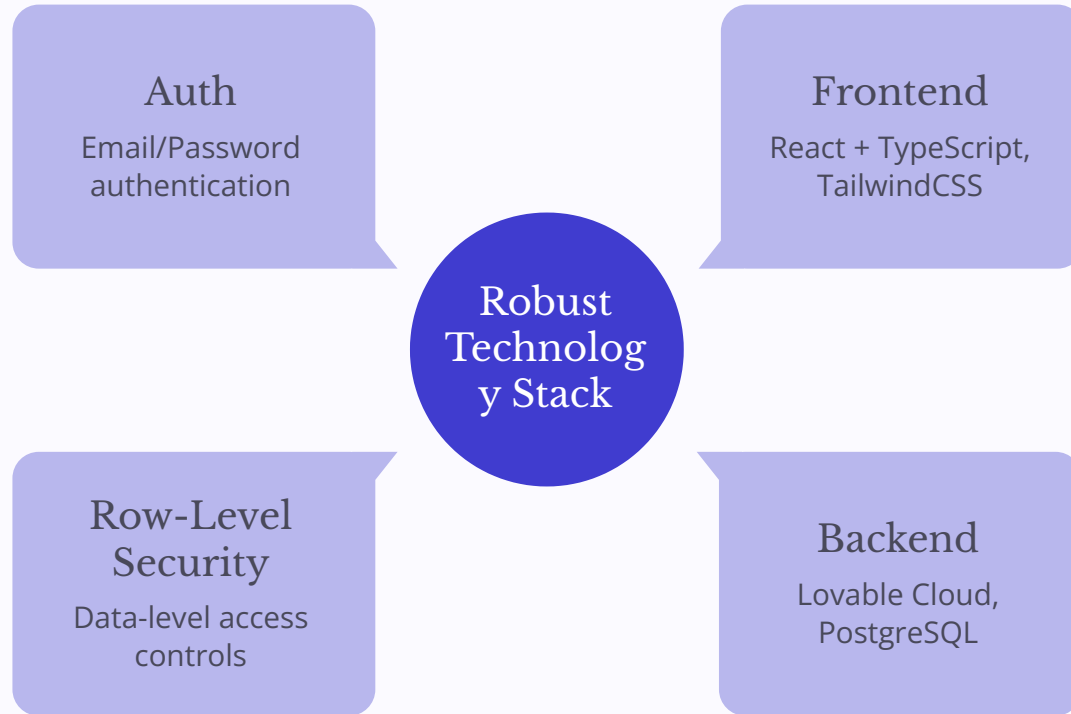

Automated Expiration

Ensuring only active codes are displayed.

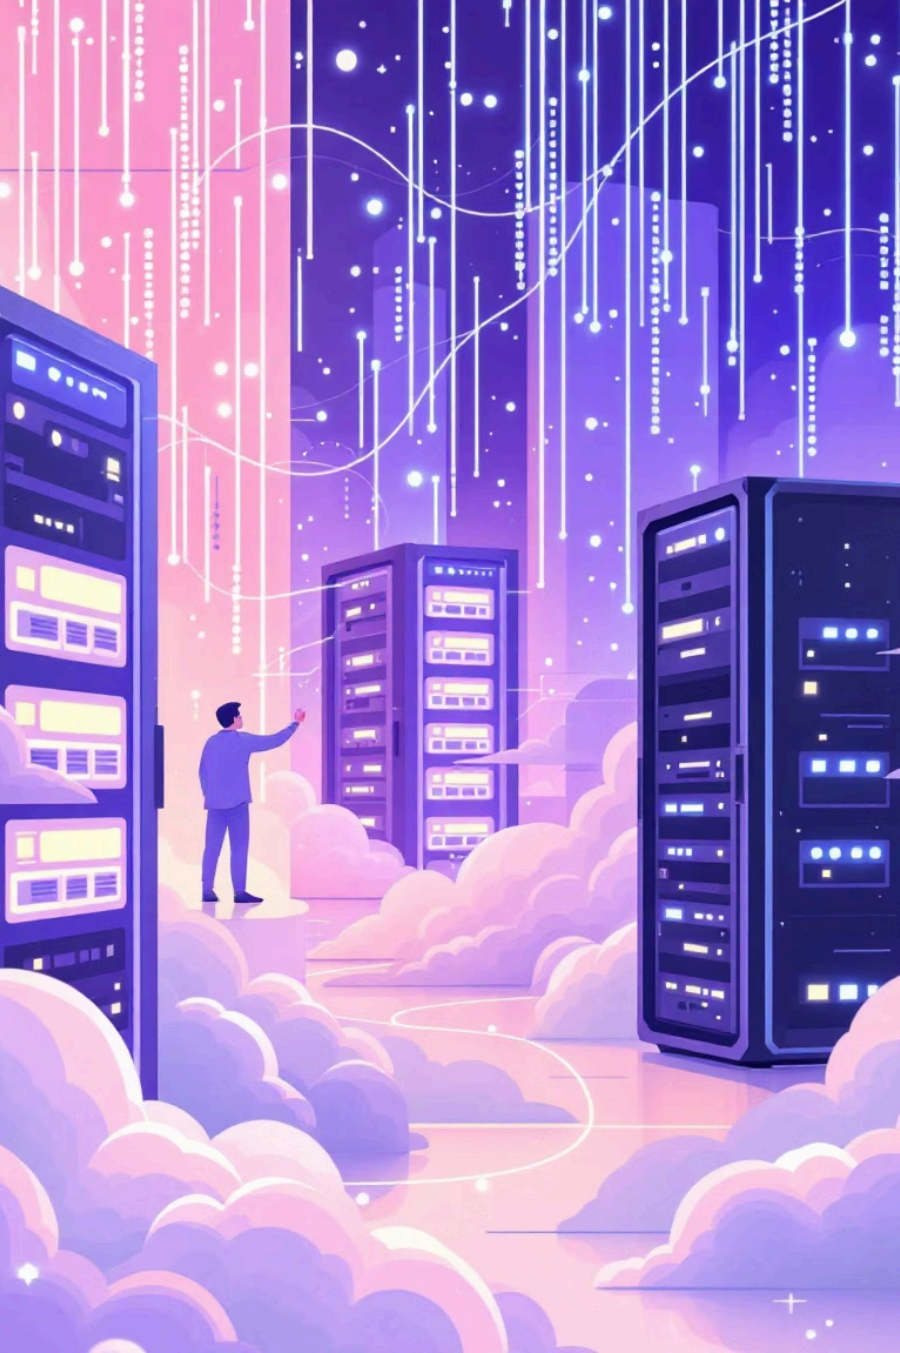

Core Features

User Authentication	Secure registration and login with email confirmation.
Coupon Management	Users can add, edit, and delete their shared coupons (CRUD).
Smart Filters	Search by store, and filter active or expiring codes for precision.
Auto-Expiration	Automatic system updates coupon status when expired.
Responsive UI	Optimized for seamless experience across all devices.

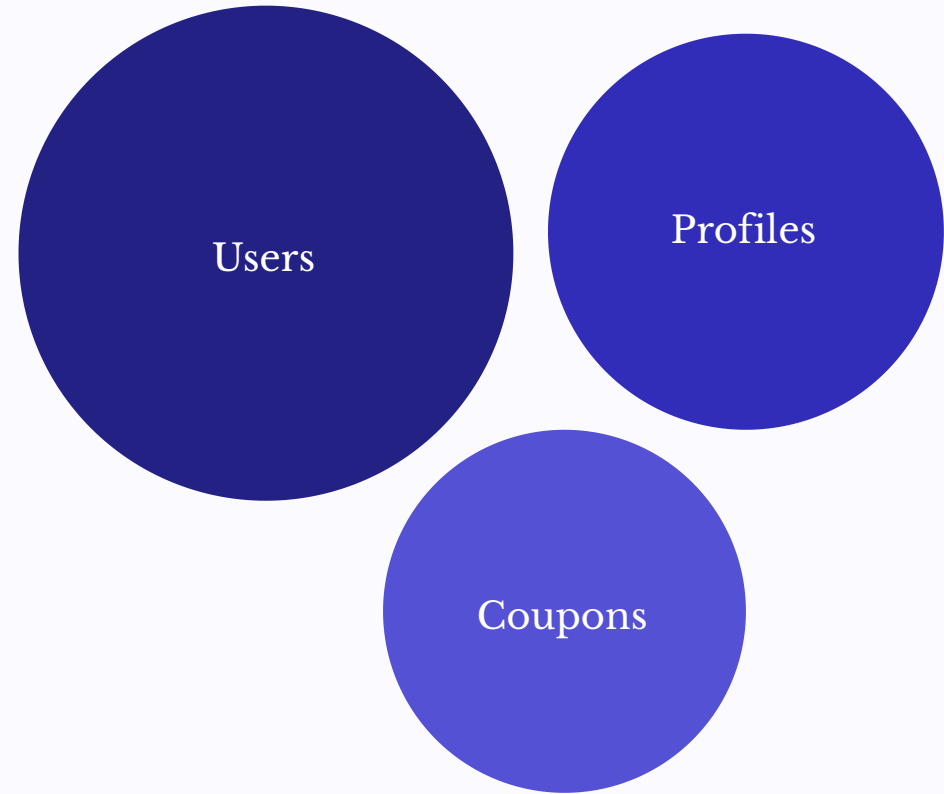

Robust Technology Stack

Our platform is built on modern, scalable, and secure technologies to ensure reliability and performance.

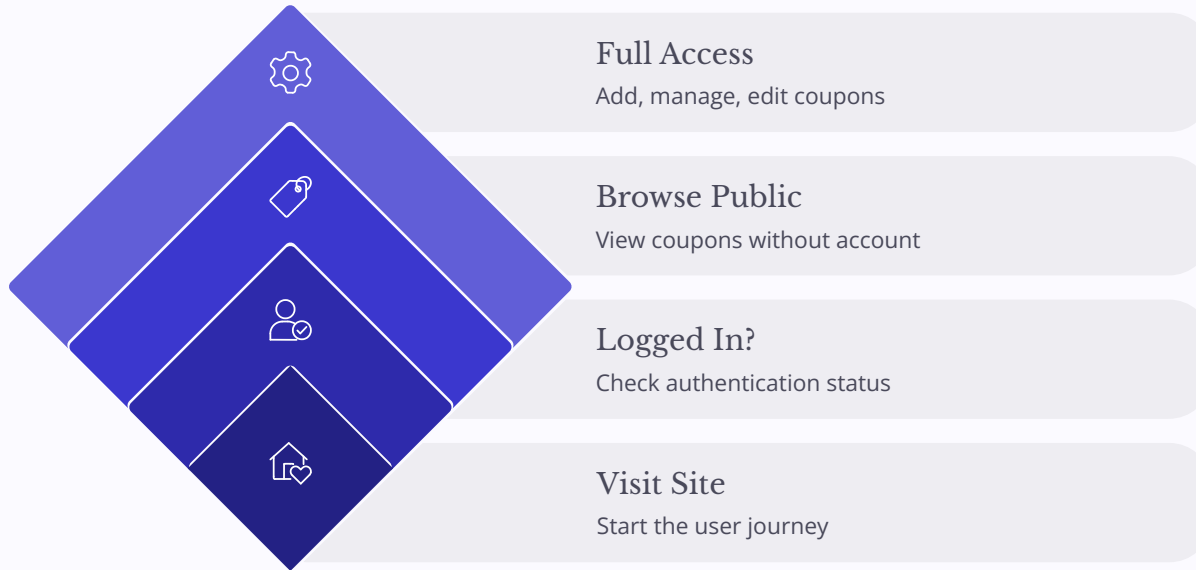

Database Architecture

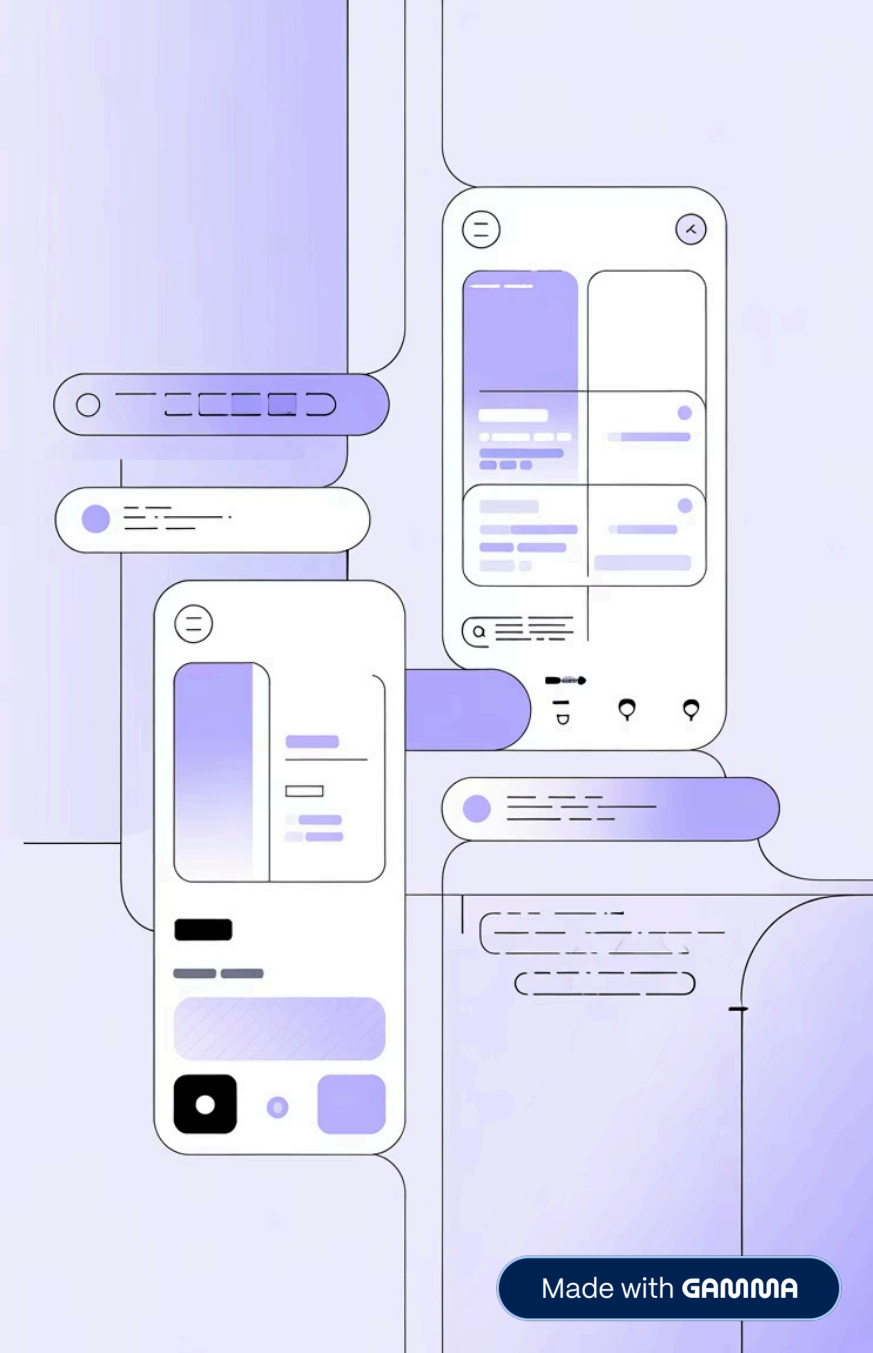

Designed for efficient data management and clear relationships between users, profiles, and coupons.

Intuitive User Flow

A streamlined experience ensuring users can easily browse, share, and manage coupons.

Security First

Implementing robust security measures to protect user data and maintain platform integrity.

Password Hashing

Secure authentication via Supabase Auth.

Row Level Security

Users modify only their own data.

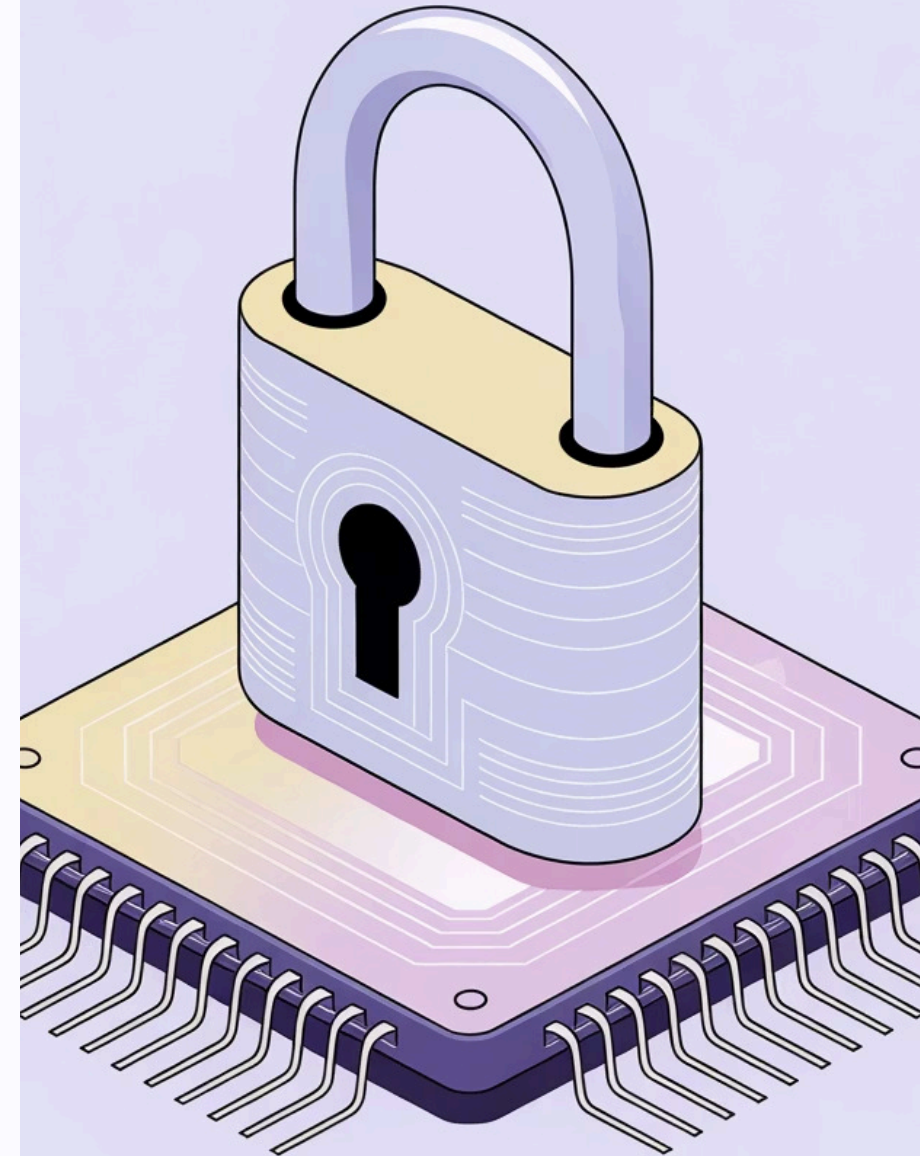

Protected Routes

Unauthorized users are redirected.

Input Validation

Prevents invalid and past expiry dates.

Future Enhancements

Continuous development to expand features and enhance user experience.

01

Image Upload

Directly upload coupon images for visual reference.

02

Categories & Tags

Organize coupons by type: food, electronics, fashion, etc.

03

Upvote/Downvote System

Community-driven rating for coupon effectiveness.

04

Admin Dashboard

Tools for content moderation and platform oversight.

05

Dark Mode

Offer a customizable viewing experience.

Key Takeaways

- Fully Functional

A complete coupon sharing platform.

- Secure Authentication

Robust user data protection.

- Real-time Data

With efficient auto-expiration.

- Responsive UI

Modern and user-friendly on all devices.

- Scalable Architecture

Ready for future growth and expansion.

Thank you!
